Hi Romeo, just wanted to let you know that the investigators know who I am now, however im not worried and im just remaining calm. Perhaps if things get any worse I should consider turning myself in, only if they find out im in New York because right now they dont know.

<http://negotiationisover.com/2011/01/breaking-news-sadistic-kitten-killer-identified-as-gay-porn-star/>

<http://www.stopcrush.org/>

Also, since the majority of organizations who are looking for me are here in New York, Rescue Ink, Peta etc I would want the police to give me protective custody, not only at Rikers, but also at any facility I would be placed in.

Like I said though, everythings fine now, but if it gets alot worse then I think my only option would be to go to the police and tell them everything that happend to me, im sure once they realize I was raped, beat and threatened with murder they will understand why.

oh ya I forgot, all this nonsense about this guy "Jamsey" being me is just that...nonsense, what they are reporting that "jamsey" is my alias and that im "involved with hurting children" is utterly rediculous and I dont know anything about him or what these people are reporting.

Thanks and have a nice evening.

Luka

Hi Romeo,

I apologise about the confusion. I tried calling you but got your voicemail. So ill give you a quick update of what happened.

Manny took me from Manhattan. I phoned 911 quickly from Manhattan and reported he was attempting to kidnap me. They took the report on saturday the 15th. I dont understand why they didnt take

it seriously and start looking for me? Because they did not take it seriously I was raped again. He took me to Miami and made me drink a bottle of gatorade and I passed out. I awoke in a nightclub and I was forced by him to engage in sexual activity with two other people.

Cant the Manhattan ploc be sued because they didnt report me missing ? I gave my full name and everything. I awoke on the beach badly burned and very sore in my rectum and I was throwing up non stop. Also I could hardly walk.

I called 911 and reported this in Miami Beach (south beach police) they didnt take it seriously either. They became agresive in their questioning of me and I advised them I need medical treatment for my rape.

When i arrived to Mount Siani Hospital in Miami, they did tests, however they noticed I was very groggy. So they asked me why and I advised them I was drugged and raped. They again didnt take it seriously and put me in a psychiatric ward for 24 hours, I explained to them I have no mental illness and im not on any medication and im not a threat to myself. They still held me.

I filed a complain with the hospital and told them I was victimized now TWICE because noone belived me that ive been raped and then ontop of that they threw me in the psych ward. I filed the complaint today with the Hospital Review.

Now the hospital advised me that I need to go back to the police station in Miami South Beach and file a complaint formally. I cannot believe they didnt take me seriously and put me through all this. The psych ward released me after 24hours and told me I was safe and nothing was wrong with me...

The police need to take this seriously and stop acting like im making this up... because of their actions I was raped. I just want to file the report and come back to Manhattan and get this all over with. I have more money for you and I think we should go to the police asap.

When you get this my cell is [347-574-XXXX](tel:347-574-XXXX)

P.S also they didnt believe me about ANY abuse even though I told them I have photos. This guy is dangerous and if anything happens to me I hope the cops are held responsible.

Thanks
Luka

Hey Romeo, I hope your good. i just wanted to let you know so far everythings good. I dont think i should go to the police confessing anything right now. I am living in New jersey quietly and I hope it stays that way. If things change or get really bad i think thats when I should talk to the police. I am focusing on making money because I know I will need it if there is a trial. I have to get my life back and im working really hard on it. Im staying away from dangerous people and i hope I can live as quiet of a life as possible. I appreciate your help and if anything comes up then I will call you right away. but for now I think its a good idea to just focus on working and rebuilding my life. if there is a trial or im arrested or anything gets worse ill call you right away. Thanks for being so nice and helping me.

Take care and like i said ill call you right away if anything happens.

Luka :)
